Accessories for all Chambers and Glove Boxes: Stainless Steel Support Carts (Trolleys)

These carts are very useful for increasing portability and laboratory space.

All carts have anti-scuff casters including brakes and locks. Carts also feature a cushioning system that minimizes vibration, shocks, and wear and tear on chambers.

Most carts feature lower horizontal gas tank support racks which provide greater tank handling safety and flexibility.

Also available in a "knocked down" (unassembled) version. See information below.
